

Defender Bluetooth Edition

Next-Gen PS3, PS4, PC Wireless Bluetooth Controller

Firmware Update Instructions

1. Please download "ShootingPlus v3" it is both on Android and the Apple iPhone app store.
2. Open your phone's Bluetooth settings.
3. Press and hold the gamepad "screenshot" button (we set this button to be the update firmware button), at the same time press "Home" button to turn on gamepad. Gamepad LED1 will flash quickly.
4. Connect the gamepad on your phone, should come up as "MY-09" or "Gamepad". If connecting on iPhone, it will tell you to disconnect. Follow the above steps 1 more time and it will now display 2 LED lights indicating iPhone mode.
5. Open the ShootingPlus v3 software.
6. Press the right up corner setting (dots), and then Press "Beta Firmware".
7. Press the "Upgrade Immediately" button.
8. Your Defender Bluetooth gamepad is now updated!
